23 rapid fielding pathway, the process described in
24 paragraph (1) shall include—

1 “(A) a merit-based process for the consid-

5 manders;

6 “(B) a process for demonstrating perform-
7 ance and evaluating for current operational
8 purposes the proposed products and tech-
9 nologies;

10 “(C) a process for developing and imple-
11 menting acquisition and funding strategies for
12 a program or project to be carried out under
13 such pathway;

14 “(D) a process for considering lifecycle
15 costs and addressing issues of logistics support
16 and system interoperability; and

11 testing, and logistics, to enable the program
12 manager to manage the program without the
13 technical assistance of another element of the
14 Department of Defense to the maximum extent
15 practicable.

4 “(E) A program manager appointed under
5 subparagraph (A) may seek an expedited waiver
6 from any regulatory requirement, or in the case
7 of a statutory requirement, a waiver from Con-
8 gress, that the program manager determines
9 adds cost, schedule, or performance delays with
10 little or no value to the management of such
11 program or project.

12 “(F) If an operational capability is fielded
13 for a program or project for which the author-
14 ity under this section is used, the appropriate

21 **SEC. 5703. HELLO GIRLS CONGRESSIONAL GOLD MEDAL.**

22 (a) FINDINGS.—Congress finds the following:

23 (1) On April 6, 1917, the United States de-
24 clared war against Germany. As a historically neu-
25 tral nation, the United States was unprepared to
26 fight a technologically modern conflict overseas. The

1 United States called upon American Telephone and
2 Telegraph (referred to in this section as “AT&T”)
3 to provide equipment and trained personnel for the
4 Army Signal Corps in France. AT&T executives in
5 Army uniform served at home under the provisions
6 of the Act entitled “An Act for making further and
7 more effectual provision for the national defense,
8 and for other purposes.”, approved June 3, 1916
9 (referred to in this section as the “National Defense
10 Act of 1916”), which allowed for the induction of in-
11 dividuals with specialized skills into a reserve force.

12 (2) When General John Pershing sailed for Eu-
13 rope in May of 1917, as head of the American Expe-
14 ditionary Forces (referred to in this section as the
15 “AEF”), he took telephone operating equipment
16 with him in recognition of the inadequacy of Euro-
17 pean circuitry and with the understanding that tele-
18 phones would play a key role in battlefield commu-
19 nications for the first time in the history of war.

20 (3) From May to November of 1917, the AEF
21 struggled to develop the telephone service necessary
22 for the Army to function under battlefield condi-
23 tions. Monolingual infantrymen from the United
24 States were unable to connect calls rapidly or com-
25 municate effectively with their French counterparts

1 to put calls through over toll lines that linked one
2 region of the country with another. The Army found
3 that the average male operator required 60 seconds
4 to make a connection. That rate was unacceptably
5 slow, especially for operational calls between com-
6 mand outposts and the front lines.

7 (4) During this time, in the United States, tele-
8 phone operating was largely sex-segregated. Hired
9 for their speed in connecting calls, women filled 85
10 percent of the telephone operating positions in the
11 United States. It took the average female operator
12 10 seconds to make a connection.

13 (5) On November 8, 1917, General Pershing
14 cabled the War Department and wrote, “On account
15 of the great difficulty of obtaining properly qualified
16 men, request organization and dispatch to France a
17 force of women telephone operators all speaking
18 French and English equally well.”. To begin, Gen-
19 eral Pershing requested 100 women under the com-
20 mand of a commissioned captain, writing that “All
21 should have allowances of Army nurses and should
22 be uniformed.”.

23 (6) The War Department sent press releases to
24 newspapers across the United States to recruit
25 women willing to serve for the duration of the war

1 and face the hazards of submarine warfare and aer-
2 ial bombardment. These articles emphasized that pa-
3 triotic women would be “full-fledged soldier[s] under
4 the articles of war” and would “do as much to help
5 win the war as the men in khaki who go ‘over the
6 top.’”. All women selected would take the Army
7 oath.

8 (7) More than 7,600 women volunteered for the
9 100 positions described in paragraph (5) and the
10 first recruits took the Army oath on January 15,
11 1918.

12 (8) Like nurses and doctors at the time, female
13 Signal Corps members had relative rather than tra-
14 ditional ranks and were ranked as Operator, Super-
15 visor, or Chief Operator. When promoted, the
16 women were required to swear the Army oath again.

17 (9) Telephone operators were the first women
18 to serve as soldiers in non-medical classifications
19 and the job of the operators was to help win the
20 war, not to mitigate the harms of the war. In pop-
21 ular parlance, they were known as the “Hello Girls”.

22 (10) Signal Corps Operators wore Army uni-
23 forms and Army insignia always, as well as stand-
24 ard-issue identity disks in case of death, and were

1 subject to court martial for infractions of the mili-
2 tary code.

3 (11) Unbeknownst to the women operators and
4 their immediate officers, the legal counsel of the
5 Army ruled internally on March 20, 1918, that the
6 women were not actually soldiers but contract em-
7 ployees, even though the women had not seen or
8 signed any contracts. Military code allowed only for
9 the induction of men and the code remained un-
10 changed despite the orders of General Pershing.
11 Nevertheless, legal counsel also recognized that the
12 National Defense Act of 1916, which allowed for the
13 induction of members of the telephone industry of
14 the United States into the Armed Forces, imposed
15 no gender restrictions.

16 (12) Four days later, on March 24, 1918, the
17 first contingent of operators began their official du-
18 ties in France. The operators arrived before most in-
19 fantrymen of the Armed Forces in order to facilitate
20 logistics and deployment and spent their first night
21 in Paris under German bombardment.

22 (13) After the arrival of the operators, tele-
23 phone service in France improved immediately, as
24 calls tripled from 13,000 to 36,000 per day.

1 (14) The Army quickly recruited, trained, and
2 deployed 5 additional contingents of female Signal
3 Corps operators. With these personnel, calls in-
4 creased to 150,000 per day.

5 (15) In addition to standard telephone oper-
6 ating, bilingual Signal Corps members provided si-
7 multaneous translation between officers from France
8 and officers from the United States, who were com-
9 municating by telephone.

10 (16) The AEF fought their first major battles
11 in the last 2 months of the war. By that point, the
12 Signal Corps considered the contributions of women
13 to be so essential that, in telephone exchanges clos-
14 est to the front line, the Army exclusively used
15 women, in rotating 12-hour shifts. In the rear, the
16 Army established rotating 8-hour shifts and gave
17 male soldiers the overnight shift when telephone
18 traffic was slower.

19 (17) Seven bilingual operators—

20 (A) served at the Battles of St. Mihiel and
21 Meuse-Argonne under the immediate command
22 of General Pershing;

23 (B) staffed the Operations Boards through
24 which orders to advance, fire, and retreat were
25 delivered to soldiers in the trenches, to artillery

1 units on alert, and to pilots awaiting orders at
2 French airfields; and

3 (C) were awarded a “Defensive Sector
4 Clasp” for the Meuse-Argonne operation.

5 (18) The Chief Operator supervising the Hello
6 Girls, Grace Banker of Passaic, New Jersey, was
7 awarded the Distinguished Service Medal. Out of
8 16,000 eligible Signal Corps officers, Banker was
9 one of only 18 individuals so honored.

10 (19) Thirty additional operators received special
11 commendations, many signed by General Pershing
12 himself, for “exceptionally meritorious and con-
13 spicuous services” in “Advance Sections” of the con-
14 flict.

15 (20) The war ended on November 11, 1918. As
16 of that date, 223 female operators served in France
17 and had connected 26,000,000 calls for the AEF.

18 (21) The Chief Signal Officer of the Army Sig-
19 nal Corps wrote in his official report 2 days after
20 the date on which the war ended that “a large part
21 of the success of the communications of this Army
22 is due to . . . a competent staff of women opera-
23 tors.”.

24 (22) After the war ended, some women were or-
25 dered to Coblenz in Germany for the occupation of

1 that country and to Paris for the Paris Peace Trea-
2 ty of 1919 to continue telephone operations, some-
3 times in direct support of President Woodrow Wil-
4 son.

5 (23) Two operators, Corah Bartlett and Inez
6 Crittenden, died in France in the service of the
7 United States and were buried there in military
8 cemeteries with military ceremonies. Those operators
9 died of the same influenza pandemic that killed more
10 soldiers of the Armed Forces than combat oper-
11 ations.

12 (24) Women of the Army Signal Corps were in-
13 eligible for discharge until formal release. Because of
14 their role in logistics, those women were among the
15 last soldiers to come home to the United States. The
16 last Signal Corps operators returned from France in
17 January of 1920.

18 (25) Upon arrival in the United States, the
19 Army informed female veterans that they had per-
20 formed as civilians, not soldiers, even though opera-
21 tors had served in Army uniform in a theater of war
22 surrounded by men who were similarly engaged.

23 (26) Despite the objections of General George
24 Squier, the top-ranking officer in the Signal Corps,
25 the Army denied Signal Corps women the veterans'

1 benefits granted to male soldiers and female nurses,
2 such as—

3 (A) hospitalization for disabilities incurred
4 in the line of duty;

5 (B) cash bonuses;

6 (C) soldiers' pensions;

7 (D) flags on their coffins; and

8 (E) the Victory Medals promised them in
9 France.

10 (27) For the next 60 years, female veterans, led
11 by Merle Egan from Montana, petitioned Congress
12 more than 50 times for their recognition. In 1977,
13 under the sponsorship of Senator Barry Goldwater,
14 Congress passed legislation to retroactively acknowl-
15 edge the military service of the Women's Airforce
16 Service Pilots (referred to in this section as
17 "WASPs") of World War II and "the service of any
18 person in any other similarly situated group the
19 members of which rendered service to the Armed
20 Forces of the United States in a capacity considered
21 civilian employment or contractual service at the
22 time such service was rendered".

23 (28) On November 23, 1977, President Jimmy
24 Carter signed the legislation described in paragraph

1 (27) into law as the GI Bill Improvement Act of
2 1977 (Public Law 95–202; 91 Stat. 1433).

3 (29) The Signal Corps telephone operators ap-
4 plied for, and were granted, status as veterans in
5 1979.

6 (30) Only 33 of the operators who had returned
7 home after the war were still alive to receive their
8 Victory Medals and official discharge papers, which
9 were finally awarded in 1979.

10 (31) One of the women, Olive Shaw from Mas-
11 sachusetts, returned to the United States after the
12 war, where she worked on the professional staff of
13 Congresswoman Edith Nourse Rogers. Shaw lived to
14 receive her honorable discharge and was the first
15 burial when the Massachusetts National Cemetery
16 opened on October 11, 1980. Shaw’s uniform is on
17 display at the National World War I Museum and
18 Memorial in Kansas City, Missouri.

19 (32) Upon receipt of her honorable discharge at
20 a ceremony in her home in Marine City, Michigan,
21 “Hello Girl” Oleda Joure Christides raised the paper
22 to her lips and kissed it. The only thing Christides
23 ever wanted from the Federal Government was a
24 flag on her coffin.

1 (33) On July 1, 2009, President Barack Obama
2 signed into law Public Law 111–40 (123 Stat.
3 1958), which awarded the WASPs the Congressional
4 Gold Medal for their service to the United States.

5 (34) For their role as pioneers who paved the
6 way for all women in uniform, and for service that
7 was essential to victory in World War I, the “Hello
8 Girls” merit similar recognition.

6 **SEC. 7101. COMPETITIVE LOCAL COMPENSATION PLAN.**

7 It is the sense of Congress that—

8 (1) the effectiveness and stability of United
9 States foreign missions are linked to the dedication
10 and expertise of locally employed staff; and

12 benchmarked against the local market is essential
13 not only to retain valuable talent but also to reflect
14 a commitment to employment practices abroad.

15 **SEC. 7102. STRATEGY FOR TARGETED RECRUITMENT OF**

17 nearest Department medical officer, who may not
18 have access to up-to-date personnel medical files;

19 (4) the lack of electronic medical records is
20 even more important for mental health records, as
21 the Department only has a small number of regional
22 medical officer psychiatrists and relies heavily on
23 telehealth for most Foreign Service personnel; and

24 (5) due to the critical need for electronic med-
25 ical records, it is imperative that the Department
26 address the situation quickly and focus on secure

1 commercially available or other successful systems
2 utilized by public and private sector organizations
3 with a track record of successfully implementing
4 large-scale projects of this type.

5 (b) ELECTRONIC MEDICAL RECORDS REQUIRE-
6 MENT.—Not later than December 31, 2027, the Secretary
7 shall have fully implemented an electronic medical records
8 process or system for all Foreign Service personnel and
9 their Eligible Family Members that eliminates reliance on
10 paper medical records and includes appropriate safeguards
11 to protect personal privacy.

14 after the date of the enactment of this Act, and
15 every 180 days thereafter, the Secretary shall sub-
